### An Opportunity

For Investments.

The year 1901 was the most prosperous year Palatka has had since 1894. All of our manufacturing enterprises report satisfactory business and increasing sales.

Nearly every merchant states that his business shows an increase over the previous year

During the past four months the sales of city real estate have exceeded, in amount, annual sales of several previous years, and prices obtained were quite satisfactory.

The statements of the banks in Palatka show larger deposits than the year of the freeze. This statement may seem incredible, but it is a fact and a most pleasing one to every right minded citizen of the county. There are a few dissatisfied persons, but nearly all are looking for and expecting greater prosperity and improvement during 1902.

Our County is producing oranges again and the prospects for an orange crop this year is most flattering.

Investors can hardly err in purchasing Lemon Street property at the right prices. I own and control Five Hundred (500) feet of unimproved Lemon Street property which I offer in lots to suit purchaser, and at prices which must be considered low. Terms of payment will be made easy.

If you have money to invest and do not care to purchase real estate, I control \$10,000 of first mortgages on Lemon Street property, all located between the Arlington Hotel and the river, which I will sell. These mortgages draw from 7 to 8% interest, payable semi-annually and the interest has always been promptly paid. Each mortgage is on business property, well rented.

If you have any desire to invest, I would be pleased to have you call at my offce and learn what I have to offer you. If out of town, write me.
